myLifeChoices

Welcome

As an intern or co-op student, we want to make it simple and convenient for you to obtain medical coverage for yourself and your dependents. The company offers the Bronze medical plan option to you and your eligible dependents. The plan option meets the ACA requirements for medical coverage.

Enrolling in the Bronze option is not required, and there may be other options available to you and provide the level of medical coverage you need (e.g., parent's or spouse's coverage; certain government-provided coverage).

It's important to know that being covered by more than one medical plan doesn't mean you get twice the coverage. Most medical coverage, including the company's, utilizes the coordination of benefits rules where one plan becomes your primary plan. It pays your claims first. Then, the second plan pays toward the remaining covered claim expenses, if any. If you have other coverage, you should review the benefits in each plan to determine whether you will receive any additional benefit from being covered by two plans.

New Hires — You Must Enroll Within 31 Days!

- New benefits coverage begins the first day of the month following your date of hire or immediately if your hire date is the first day of the month.
- See the **Get Enrolled** section for more guidance.

Current Employees — Action Required October 26 - November 9, 2022:

You must go to ***my*LifeChoices.com** during Open Enrollment to do the following:

- Confirm your medical plan for your 2023 benefits (if you don't enroll by the November 9 deadline, you will default to your current coverage).
- Review and/or change your current contribution to the Health Savings Account (HSA).
- Review and/or add your eligible dependents on ***my*LifeChoices.com**.

ELIGIBILITY

You are eligible for the Bronze option if you are defined as an "Intern or Co-op" and work 30 or more hours per week.

The following dependents are eligible for coverage:

- Your spouse
- Your children under age 26
- Your children over age 26 who were incapacitated* prior to age 26

Once you've added dependents, you'll receive a request in the mail from the Alight Solutions Dependent Verification Center to provide the appropriate documentation for any newly enrolled dependents. **If you do not provide the requested documentation, your unverified dependents will be removed from coverage.**

*This means being severely mentally or physically disabled, unable to be self-sufficient.

CHANGING YOUR BENEFITS DURING THE YEAR?

If you elect to be covered under the Medical Plan, your election for the year is for the full Plan year unless you experience a qualified life event. You must change your elections at ***my*LifeChoices.com** or call the **Koch Benefits Solution Center** at **877-344-5772** within **31 days** of such event (unless otherwise specified). If you miss this deadline, you must wait until the next Open Enrollment period to make changes to your benefits.

A qualified life event includes:

- Birth, adoption, or placement for adoption (You have **60 days** after these events to add your child)
- Marriage
- Divorce, legal separation, or annulment
- Death of a dependent
- Change in employment status for your dependent
- Spouse's retirement
- Becoming eligible for Medicare
- Loss of eligibility for other health care coverage

Tobacco Surcharge

You will be subject to a $75 monthly surcharge if you or your covered dependents (age 18 or older at the time your coverage begins) use any tobacco products during the Plan year.

Tobacco-Free Reasonable Alternative

The tobacco-free premium is considered a wellbeing program. If you think you might be unable to meet a standard for receiving the tobacco-free premium savings under this wellbeing program, you might qualify for an opportunity to earn the same reward by different means. Contact the **Koch Benefits Solution Center** at **877-344-5772** and representatives will work with you (and, if you wish, with your doctor) to provide a reasonable alternative that is right for you in light of your health status to receive the same savings.

HEALTH SAVINGS ACCOUNT

You may be eligible to open a Health Savings Account (HSA) to be used for eligible expenses. An HSA provides a before-tax payroll deduction option and can help pay for eligible medical, dental, prescription, and vision expenses, including expenses that apply to your annual deductible.

- Unused HSA balances remain in your account for future eligible expenses.
- HSAs are used to reduce out-of-pocket expenses.
- HSAs also can be used to cover expenses applied to your annual deductible.

If you elect an HSA contribution, the company will initiate the opening of your Health Savings Account with Bank of America on your behalf. If you do not want to open an HSA with Bank of America, you must **waive** your HSA contribution.
